Its battles for human rights, its preservation of the Union, its abolition of slavery, its protection to labor, its elevation of manufacturers, its upholding of the national credit, its efforts in behalf of honest financial methods, its homestead system and its devotion to popular education have made for it the greatest record of any political organization this or any other country

ever had, The names of its heroes are legion, and the deeds of Fremont, Lincoln, Grant and Garfield will shrine like electric lights on the pages of history. The Republicans of Nevada, in convention assembled, heartily indorse

the acts of the flfty-first Congress, which has made greater advances in correct and needed legislation than any since the war. The crime of filibustering, so often resorted to by the Democratic party

for the purpose of defeating legislation and blocking the wheels of gov-ernment, has been done away with by the genius of Reed, McKinley and their associates, and the offenders taught that congressman are paid by the people for making laws and not bad politics.

It had, by a strictly party vote, placed the silver question on a basis that will lead naturally to free coinage and disarm all opposition among

financiers. It has taken up the work of a readjustment of the tariff in a patriotic and business-like way, such as will protect the interest of labor and at the same time encourage capital to enterprise that will furnish it with employment at good wages.

The record of the Republican party is its best platform.

No political party in human history has taken such advanced positions for the equality of races, none has so wedded the administration of authorit to the needs of business, none has so managed the affairs of a State as to encourage the development and settlement of a continent, none has elevated a nation and so contributed to the comfort and happiness of man, none has so honestly and economically car-
